## RESEARCH RECORD

### BIBLIOGRAPHY

\*Papers authored or co-authored by Dr. Kennedy for the World Health Organization (WHO). From 1998-2002, Dr. Kennedy directed analyses and wrote the papers noted below for the WHO Task Force on Methods for the Natural Regulation of Fertility, or for individual investigators on that Task Force, through WHO.

From 1983-1997, Dr. Kennedy was employed by Family Health International (FHI) which had a policy of listing foreign national research collaborators first despite the fact that FHI scientists actually directed the research and analysis and wrote the papers. During this period, where Dr. Kennedy is not first author, the leading authors are either foreign national collaborators or research analysts under her mentorship.

In the *Contraceptive Technology* book chapters, Dr. Kennedy wrote the chapters. Professor Trussell is the editor assigned to the chapter who checked the material for consistency with other chapters and provided editorial guidance.

Dr. Kathy Irene Kennedy is a public health scientist and educator who has conducted numerous studies in reproductive health, especially in the areas of lactation, fertility, and contraception. She has directed several multi-center international studies, and has written on women's health, on human immunodeficiency virus (HIV/AIDS), and on postpartum issues. She has worked in some twenty countries and several American Indian reservations. She also has directed health and environmental leadership development programs for two decades. Currently Dr. Kennedy is most active in education and public health practice.

In research, Dr. Kennedy has worked as an advisor to the WHO Reproductive Health Research Programme in Geneva, Switzerland, where she directed data analysis and report writing for a large international prospective study. She has served on the Technical Advisory Boards for research for the Linkages project of the Academy for Educational Development in Washington, DC and for the Institute for Reproductive Health at Georgetown University Medical Center in Washington, DC. She provides peer review of scientific papers to a number of journals and reviews research proposals for several foundations and institutions. She also publishes on leadership development topics.

In education, Dr. Kennedy is Clinical Professor at the Colorado School of Public Health, University of Colorado Denver at the Anschutz Medical Campus. Here or elsewhere her courses have included Public Health Fundamentals, Epidemiology, Global Public Health, Maternal and Child Health, Injury Epidemiology, and Public Health Leadership in programs toward the Master and Doctor of Public Health degrees. She has extensive experience as a presenter for in-service training and continuing education. At the Colorado School of Public Health, Dr. Kennedy founded the Master of Public Health in Maternal and Child Health Programs and the Certificates in Global Public Health and Maternal and Child Health. As a consultant to clinical practice, Dr. Kennedy has served on the Advisory Panel of the International Lactation Consultants Association from 1992-2011 and participates in continuing education in the Lactation Program at Rose Medical Center in Denver, Colorado. She is a frequent presenter for continuing education for health care systems.

In public health practice, Dr. Kennedy is Director of the Regional Institute for Health and Environmental Leadership (RIHEL). RIHEL is the CDC-founded regional public health leadership development institute for Colorado, Wyoming and New Mexico. RIHEL provides leadership training and other professional development experiences for the public health, environmental health and environmental professionals in the region. With nearly 1000 graduates of its flagship *Advanced Leadership Training Program* and other comprehensive programs, RIHEL is also an association of vibrant, forward-looking professionals dedicated to the health and environment of the region. RIHEL is a model of inter-sector collaboration for professionals in the public and private sectors and in the health and environment professions. Dr. Kennedy is also a member of the Board of Directors of the Trailhead Institute which she led as president from 2010-2012. She served on the Board of the Center for Global Health of the University of Colorado for twelve years, and currently serves on the Community Advisory Committee of the Center for Public Health Practice at the Colorado School of Public Health.
