

# Lifecourse Epidemiology of Adiposity & Diabetes (LEAD) Center

colorado school of public health

## Trainee Profile: Brianna Moore, PhD (2015)

Dr. Moore received her PhD from Colorado State University in Environmental Health, Epidemiology specialization. Prior to that, she received her BS and MS from the University of Texas at Tyler. She started her postdoctoral fellowship in 2016. She is exploring the role of exposure to secondhand smoke, exclusive breastfeeding, and infant adiposity at 5 months of age in the Healthy Start Study, along with maternal pro-inflammatory diets and infant adiposity.

## Current Research in Progress

Moore BF, Sauder KA, Starling AP, Ringham BM, Glueck DH, Dabelea D. Exposure to secondhand smoke, exclusive breastfeeding, and infant adiposity at 5 months of age in the Healthy Start study. Accepted June 21, 2017, *Pediatric Obesity*.

---

Moore BF, Sauder KA, Hébert JR, Shivappa N, Ringham BM, Glueck DH, Dabelea D. Pro-inflammatory diets during pregnancy and neonatal adiposity in the Healthy Start study. *Under review*.
